---

2 loaves of angel food cake

1 lg package Strawberry Jell-O

1 pkg of frozen sweetened strawberries (thawed)

Cool Whip

### **Instructions**

Cut up angel food cake loaves into 1 inch cubes in a compote bowl. Heat 2 C of water to a boil. Mix with Jell-O in a large mixing bowl. Add the thawed strawberries and mix thoroughly. Pour over angel food cake cubes. Top with whipped topping and refrigerate for at least 4 hours.

This is a church favorite. I got it from Evelyn McAnelly, I think, who got it from LeeAnn Young, or vice versa. Anyway, I can't take credit. It's not mine, but it sure is good.

*Sharing our faith, sharing our joy, sharing our sorrows, sharing in the training of our children, sharing our talents, even sharing our recipes...these are the things that make the fellowship of our church such an important part of my life.*
